School District Report.

Report of the Superintendent.

The past year, like the preceding one, has been a progressive one in the schools and the interest shown is very commendable.

Sickness has handicapped many pupils this year, the failure of promotion in a few cases being due to protracted absence from school for this reason. The present term the cases of sickness have been numerous from what appears to be a prevailng disease, but the absences have not extended over a week or ten days; this will not probably affect class standing.

A recent "Standard Achievement Test" given in the Grammar School showed a surprisingly large number of the pupils up to grade and the school as a whole well graded. This was very pleasing as the grading in this room the past two years has been a problem. Several tested above the grade where they now are placed and a few below.

The number of Hill pupils attending high school, college, and normal schools while, in part, a sort of "spirit of the times" is nevertheless a compliment to the schools of the town that have awakened a desire in the minds of these pupils for further education.

Mrs. Rounds, who has given such faithful and conscientious service to the Grammar school, asked this year to be released and the request was granted. I consider the town very fortunate to have another competant teacher it could call upon to take up the work of this school. Mrs. Fowler is well qualified for the duties of this school and is doing efficient work.

I congratulate the Board upon what seems to me a most important progressive educational step – the uniting with other towns to form a district for employing a school nurse. This means not only having children's eyes, nose, ears and throats *examined*, but having the needy cases followed up in school and home until properly remedied. The "following up" is the all important thing in the "School Health Program." I believe the home as well as the school will profit from the work of the school nurse.

The cooperation of the Board, teachers and parents, which I have always had, in Hill, continues and I desire to express my appreciation for it.

FRED S. LIBBEY, *Superintendent of Schools.*
